

Erasmus

Hi I'm Marta and I'm 12 years old let's say 13 because I will do them on June 12th and live in Folignano near Ascoli Piceno.

I am an only child and my passions are: playing volleyball, singing, listening to music of any kind other than trap and traveling.

I like watch film but i love watch tv series, my favourite series are: lucifer, riverdale and the paper house.

I do well at school, my favorite subjects are music, physical education, art (especially theory because I'm not very good at drawing) and languages (Spanish and English).

I define myself as a person who has a hard time trusting others, but as soon as he finds one he can trust he opens up, and I am quite meteoropathic and sensitive. when I'm in a group I usually try to make friends with everyone and interact with newcomers.

I would love to participate in this year's Erasmus because: I like to travel, this experience would greatly expand my horizons, I think it would also make me learn things that I don't find in school books and I think it would also be fun, it would also help me to be a little more independent and to stay away (even if for a short time) from my parents.

It would be a great experience for me and I hope to make it happen.

Thanks for your attention.
